Dear Dr. Goldburt, MD, Ph, D,

I know I thanked you in the office already but I wanted to Thank you via a letter. In most of my adult life, I've volunteered or worked at a lower price than what I'm entitled to. When a place or a client sends me a letter, thanking me, it really means something to me.

I wanted to tell you how grateful, Dr. Joshua Fox, MD opens his practice to patients with medicare. The other day, I spent hours looking for a practice to take medicare. Finally frustrated I called my insurance carrier to find one. (I don't own a computer) They gave me your practice to go to.

I'm so grateful to Dr. Joshua Fox, MD for providing services for "peanuts", when he can get a lot more money for his services.

I hope that now that's it easier to get medicade, p̄ trying for 10 plus years. You have patients that say "Thank you." These two words mean so much to someone.

I will see you again in two weeks.

Sincerely,
